RTN – Ranch Trial, Large Flock
Sheep Course and Goat Course
July 6, 2019

Judge: Mary Alice Wisecarver

25+ head of sheep or 25+ head of goats are contained in the PT Boundary Arena – Handler and dog enters from the West gate.

1. (10 pts) Gather: Stock are gathered from the PT Boundary arena and brought to the corral
 - a. H1 – may position dog halfway from the handler’s post to the stock, handler may approach within 15 ft of stock.
 - b. H2 – dog is positioned at the handler’s post, handler may move half way between post and stock.
 - c. H3 – dog is positioned at the handler’s post and handler must remain at the post until the stock is standing at the corral gate.
2. (10 pts) Sort: The handler sorts 5 sheep into the large pen and another 5 head into the smaller pen.
 - a. H1 – may sort any 5 head into each pen
 - b. H2 – may sort any 5 head with collars into each pen
 - c. H3 – must sort 5 head with the same color collar into each pen (all red, all black, etc)
3. (10 pts) Gates: Difficult Passage
Handler and dog take remaining sheep or goats out of the corral, around to the west gate of the PT boundary arena, dog holds the stock while the handler opens the West PT boundary gate and controls them through the gate while the handler closes the gate after the flock passes through. The handler then moves to the silver gate of the Trap. The dog assists the handler to get the stock through this gate and holds the stock while the handler closes the gate.
4. (10 pts) Narrow road: The handler leads the stock along the narrow road towards the wide graze area located in the northwest corner of the trap. The stock is to stay on the road and move in a calm organized manner.
5. (10 pts) Wide Graze: Once the handler and stock reach the entrance on the west side of the graze, the stock is allowed to enter the graze and settle. The dog is expected to keep the stock within the graze area for the duration of the graze (5 minutes)
6. (10 pts) Gather 2:
 - a. H3 - The handler leaves the stock and the dog is taken to a handler’s post in the center of the trap. The handler sends the dog from the post to gather the stock and fetch them to the handlers post and then back to the road to continue the course

- b. H2 – The handler must position the dog at a point halfway from the graze and the H3 handlers post to gather the stock towards the handler and then back to the road to continue the course.
 - c. H1 – The handler sends the dog to gather the stock from the graze and returns to the road to continue the course.
7. (10 pts) Bridge: Handler and dog take the flock across the bridge.
 - a. H1 & H2: may position themselves as necessary to accomplish the task
 - b. H3 – The handler must go no further than the edges of the bridge and must remain there until the dog pushes the stock through the bridge, whereupon the handler may move.
8. (5 pts) Traffic Stop: The handler positions the dog to affect a stop and hold prior to the stock entering the traffic road allowing the handler to check for traffic. Once the handler determines the road is safe, the handler leads the flock onto the traffic road
9. (10 pts) Passage of the Car: With the dog working between the car and the flock, preventing the flock from interfering with the car or being endangered by the car. The flock should continue to move during the passage.

H1 & H2 handlers will turn off the traffic road onto the narrow road returning to the silver gate. The livestock is moved through the 2 gates (from the trap into the lane, then from the lane into the PT).

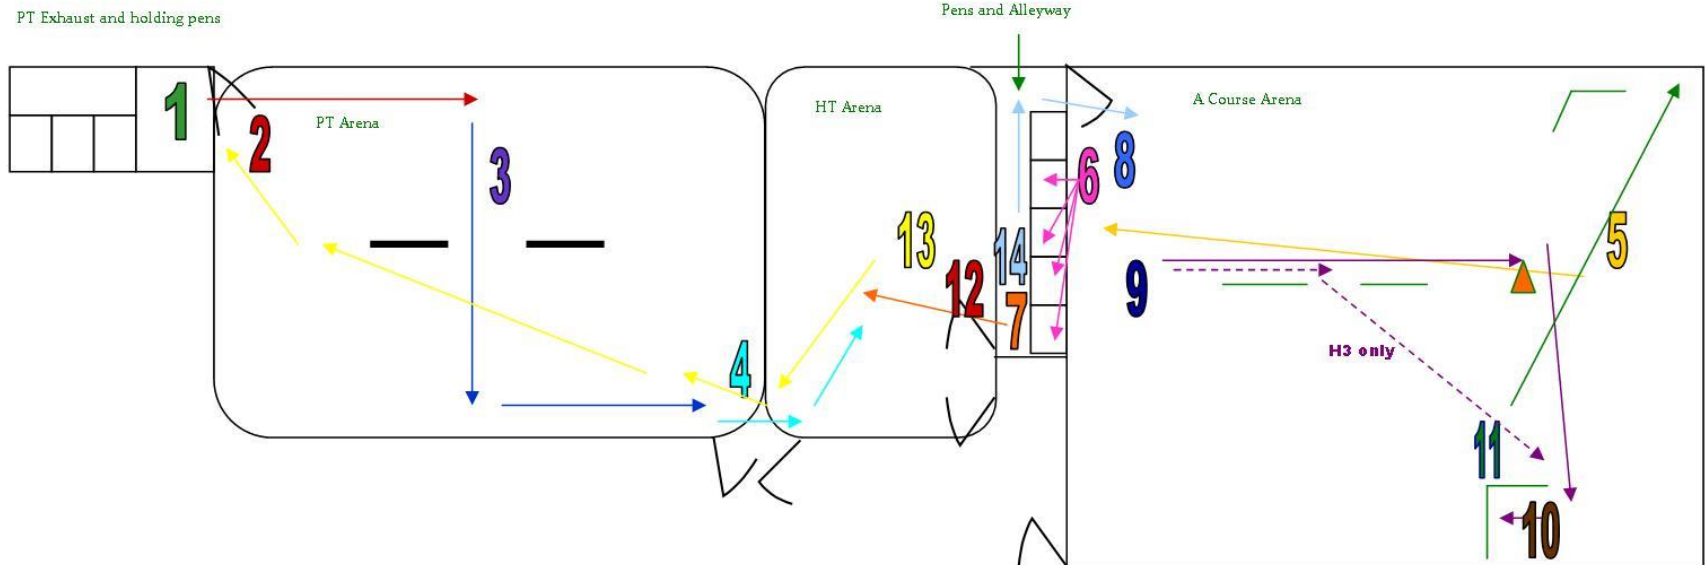

10. (10 pts) (* H3 only special task) H3 handlers will first stop the flock at the intersection of the traffic & narrow road, then proceed down the fence line to the SE corner of the field, turn north and moving along the fence proceed through the back of the free standing pen and out the gate to rejoin the road. The flock must stay within 12 ft of the fence when not on the road.
11. (5 pts) The handler and dog then return to the corral pens and un-pen the livestock in each pen and exhaust them into the PT with the balance of the flock. Time ends when the dog and handler exit the west gate of the PT boundary arena.
